

Smart Alert

The Smart Alert monitors whether a volt-free contact is open or closed on a control panel or high level alarm. It can be retrofitted to existing systems to provide basic remote monitoring.

It then automatically sends notification emails via Wi-Fi to a user-selected email address. The device body can be secured in position using an adhesive pad (supplied) and is provided with a 1.5 m 2-core cable with bare ends, ready to connect to your equipment.

Users can configure delays (between 1 minute and 12 hours), whereby the contact must remain opened or closed for a certain period of time before an alert is sent. In addition to this, the device can send a scheduled summary email detailing a number of alert events, percentage of contact open and closed time, and current battery level.

The system is simple to set up with the free FilesThruTheAir mobile app available on the App Store, or on Google Play.

Wi-Fi networks cannot be guaranteed to have 100% uptime, this product should therefore not be relied upon as a stand-alone security device.

* Battery life depends on signal strength between router/access point and Wireless Alert device, presence, volume and type of Wi-Fi traffic from other devices, operating temperature and number of alerts sent.

KEY FEATURES

- User-configurable alerts for contact open, closed or both
- Alert delay settings to prevent unwanted alerts
- Customisable alert messages
- Sends email alerts and scheduled status reports
- Wi-Fi connected
- Simple to set up using the free mobile app
- Two years' battery life (typical)
- No ongoing subscription fees
- Includes sticky pad for mounting

COMPATIBLE SYSTEMS

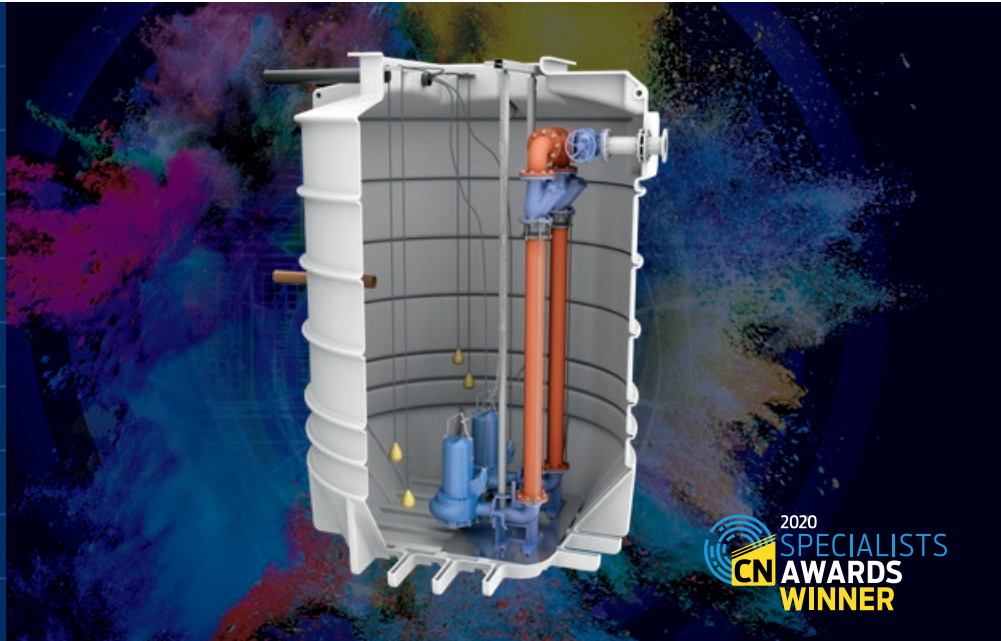

- AquaSafe Alarm
- PowerShield battery backup systems
- PowerSafe battery backup systems
- Battery backup pump systems (24 V version)
- Edincare control panels which feature volt-free contacts

CHAMBER SPECIFICATIONS

Device operating temperature	-18 to +54°C
Alert notification states	Contacts Open and/or Closed
Alert delay range	1 minute to 12 hours
Environmental conditions	Indoor use only – IP5X
Product dimensions	69 mm x 32 mm x 22 mm
Cable length	1500 mm
Battery type	2 x 1.5 V Alkaline LR03/UM4/AAA
Battery life *	2 years
Wi-Fi	WPA/WPA-2 Personal – 802.11bgn (2.4GHz)

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 30 YEARS

- Packaged pumping stations
- Waste water pumping systems
- Macerators and macerating toilets
- Floor mounted pumping stations
- Fat, oil and grease separating systems
- Rainwater harvesting systems
- Battery backup systems
- Adoptable pumping stations
- Submersible pumps
- Accessories

We provide pumped and drainage products and services to the public and private sectors, including residential, commercial, hospitality and retail.

We are proud of the long-term relationships we have built with our clients and partners, delivering cost effective, robust and dependable products and services.

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. Please refer to our Terms and Conditions at www.edincare.com
